Refer & Earn

You can now earn 25% of revenue for every creator you refer to KOMI up to a total of \$50 per referral

Here's how it works:

1. Share your unique referral link

Log into your account and locate the 'Refer a Friend' button on the menu. Copy and share your unique referral link with your network.

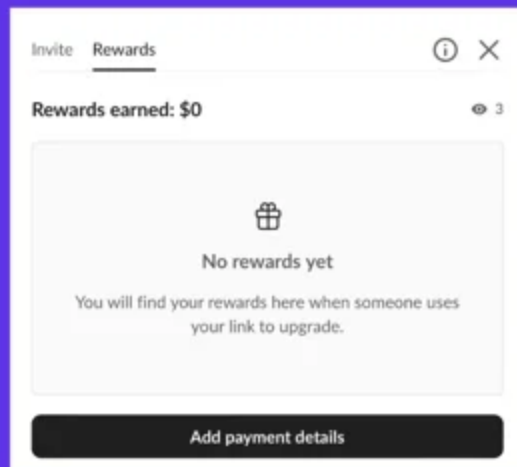

2. They sign up and start their free trial

The referred user gets 100% off for their first month. From month two onwards, they begin paying for their subscription.

3. You earn 25% of their revenue

You'll earn 25% of what they spend each month, until you've earned a total of \$50 from the referral. Since the program includes a 1-month free trial to the referred user, your first reward payment starts on the second month, after the start of their subscription.

To receive the payouts, simply add your PayPal account details in the "Rewards" section of the referral component on your KOMI account.

FAQs

1. Why didn't I get \$50 right away?

In the current campaign, rewards will be based on your referral's ongoing subscription payments (after their free trial), with a total cap of \$50 per referral. From time to time, different reward structures may be tested as part of the referral program rollout. You can always see the exact details of the reward structure in the referral component of your KOMI account.

2. How soon are rewards paid out?

Rewards are processed once the referral's subscription payment has been validated. This includes time for payment confirmation, data import, and fraud checks. In many cases, rewards appear within a few business days, but the exact timing may vary. You must have added a valid Paypal account on the referrer widget of your KOMI account to receive the payouts automatically.

3. What if my referral cancels or gets a refund?

Rewards are based only on valid subscription payments. Cancelled or refunded payments do not generate rewards. Rewards already issued for valid payments are not affected.

4. Can I earn rewards for more than one referral?

Yes. There's no limit to how many friends you can refer. Each valid referral can generate rewards, up to \$50.

The more you refer, the more you can earn.

→ [Start referring now](#)

To be eligible, your friend must sign up via your referral link. Referrals made outside of the rewards modal will not qualify.
